YOUR donation is IMPACTFUL

This year we expanded our programs thanks to you!

Our new Southern Border Asylee (SBA) Program provides comprehensive case management to asylum seekers.

560 asylum seekers received legal screening and assistance with filing their asylum petitions last year.

Grant funding from Lake County, Community Development Division will enable us to serve even more asylum seekers in the new year.

We have expanded our Immigrant Family Resource Program to serve new arrivals by connecting them with the support they need for proper health, well-being, and economic self-sufficiency.

We provide asylum seekers with free support services including public benefits registration. Additionally, Dr. Marc Ringel provides free health consultations to clients every Thursday. He will be here next on December 21, December 28, and January 4.

Our Parent Mentor program is now in five elementary schools in the Waukegan School District.

Our Immigrant Family Support Program assisted 339 individuals in receiving emergency cash assistance totaling \$502,000.
